

# The Declaration of Heaven on Earth

We the people of the planet Earth, with all the Sovereign Power and Glory and support of the Creator of all that is...

Declare unequivocally and absolutely that the Kingdom of God is here and now, that the Kingdom of Heaven is here and now.

We carry the energy of love, health, wealth, wisdom and freedom throughout all societies on this great planet.

We believe in the ideals of freedom! Freedom for the individual and freedom for the collective!

We believe in the ideals of love. Love for oneself, love for each other, love from one another, and constant uplifting and everlasting love from the Creator of all that is.

And, that love saturates our entire being as individuals, saturates the communities we live in, saturates our households, saturates our cities, our states, our countries, our continents, our Earth and the entire collective world of thought forms and energy in this beautiful world we live in.

We walk with strength and the Power of the Almighty God within us, surrounding us and saturating this entire Earth and World that we live in.

We believe in the ideals of love, health, wealth, wisdom and freedom,

Those ideals are carried in our thoughts, emotions, behaviors and ways of being, as individuals and with each other in community and society.

We believe and we know, that we live in a beautiful world that is filled with love, health, wealth, wisdom and freedom.

We Believe and We Know, that the Love of the Christ within Us is a permanent construct...  
and that Love is always in all aspects of our lives, both for the individual and for the collective.

We believe and know, that God's Divine Health and well-being flow through us constantly now and forever more.

We believe and know, that God's wealth, riches, money and resources flow in our lives freely, copiously, constantly and there is always more, and always a surplus.

We believe and we know, that God blesses us with Wisdom, Divine ideas and an empowered mindset to improve our lives  
for ourselves, our families, our communities and all societies.

We believe and know, that freedom is our God-given birthright and we believe and practice freedom for ourselves and everyone on earth.

And, we extend the beauty and the glory of the highest realms of the Heavens in all of existence and we anchor that energy into the frequency template of the Earth's crystalline core, and that energy radiates outward as the earth transforms into the most beautiful paradise that anyone could ever imagine and more.

And, the individual beings on the earth transform into their Divine form, and their Divine God-self.

Whereas, each individual radiates love, light, peace, joy, happiness, beauty, glory, harmony, cooperation, upliftment, care and compassion for one another.

And the constant activation of the ever improving and ascending God-self within the soul of everyone on earth.

And, we anchor this energy in as a permanent construct. We continue to define this reality in the most beautiful ways,  
having that as the permanent yet increasingly more magnificent World that could ever be imagined and more.

We are grateful today and always. As we declare, proclaim, live in and know that the Kingdom of Heaven is here and now.

And the highest realms of the Kingdom of Heaven are here now, and our greatest life that we could ever imagine is here and now.

We are One. We are Divine. We are each as Individuals integral parts of the creation of all that is.

And we go forth, as we transform our individual lives into something more Heavenly, our homes into something more Heavenly,  
our communities into something more Heavenly, and our World into something more Heavenly.

And we go within ourselves, and carry this energy, this vibration, this frequency, this power, this love, this health, this abundance, this prosperity, God's wisdom,  
and freedom for all into everything that we do.

And we send that energy out from the core of our beings through all of creation.

And, we create Heaven and the highest realms of the Heavens, which is the most beautiful wonderful and glorious  
Heaven, Paradise and Utopia that this World and Earth has ever experienced.

We pray for this from the state of being that we know it is already done! And so it is!

AMEN, AMEN and AMEN! And the Angels sing, AMEN!

God bless Everyone reading this document. God bless everyone in this world.

And, God bless everyone and everything, everywhere through all space and time,  
and in no space and time, in the eternal present moment of all that is.

God bless us all...AMEN and AMEN!
